Description: Featuring a sculpted seat and back, the Lily barstool perfectly supports the human body, the result of decades of ergonomic study. Adaptable to a low counter or custom bar, this contemporary stool adds a sophisticated element to any dining space.

Designed by Brian Boggs

Proudly handmade in Asheville, North Carolina, USA

Construction Details: Load-bearing pinwheel joints comprise the back legs. Legs connect to seat and back via sliding dovetail joints.

The seat and back are constructed of solid wood, carved to fit the human body and bookmatched for greatest beauty.

Materials:

Seat & Back: Plain Maple, Walnut, Cherry, Curly Maple, Ambrosia Maple

Legs: Cherry, Walnut or Ebonized Black
