

Custom Media Cabinet

**Dimensions:**

Height:
84"/213.5cm

Width:
144"/366cm

Depth:
24"/61cm

Description: Designed for maximum viewing pleasure whether the screen is on or off, this custom media cabinet elegantly encloses your home theater.

Designed by Brian Boggs

Proudly handmade in Asheville, North Carolina, USA

Construction Details: Our media cabinet showcases a waterfall of perfectly matched, bandsawn walnut flowing top to bottom.

Two speaker cabinets frame enough space for a 75" TV screen while housing four units of a seven-speaker sound system. Speaker cloth dresses up the fronts of these towers and lets the sound escape freely.

A third fabric-covered cabinet hides a fifth speaker. The two outer cabinets conceal down-facing sub-woofers. The remaining cabinets house components and accessories.

Surrounding the TV and speaker cabinets float 5 lighted shelves to display your unique collections, providing quiet inspiration when the TV is off.

Materials: Walnut
