

Live Edge Trestle Hall Table

**Dimensions:**

Height:
30"/76cm

Width:
72"/183cm

Depth:
12"/30.5cm

Custom sizes
available.

Description: Showcase your love of the natural world with this elegant hall table. The live edge softens the look of the piece as it carries all the way down the legs. This transitional table can fit into any décor from traditional to contemporary.

Designed by Brian Boggs

Proudly handmade in Asheville, North Carolina, USA

Construction Details: Tapered sliding dovetails join the legs to the top.

The center beam further enhances this solidity with wedged, double through-tenons.

Legs are set in from the back edge of the table so that any baseboard trim won't interfere with the top nesting against a wall.

We construct all of our table tops from carefully selected logs sawn to our specifications

Materials: Shown in walnut. This table may be constructed from any of our North American hardwood species.
